

TREE KING

We just pruned your neighbor's live oak

The young live oak the builder planted in your yard needs the same shaping. A few cuts now keep it strong for decades.

IRAN WAR DISCOUNT

40% OFF

Young live oak pruning

\$120-\$300 reg. \$200-\$500

Fuel prices are hurting every American family, so we cut ours by 40%.

TREE KING

What young oak pruning fixes

- ✓ **Competing leaders.** Tight forks are where big oaks split in storms. We keep one leader.
- ✓ **Low, crowded limbs.** We pick the permanent limbs and raise the canopy off the sidewalk, driveway and roof.
- ✓ **Long, floppy growth.** Shortened so the tree fills in evenly instead of leaning.
- ✓ **Planting leftovers.** Stakes, straps, tags and trunk wrap come off.

Book with your neighbors: we can do the whole street in one visit.
